

2014

Reference for Samara C. Kezele Fritchman

Ms. Fritchman's education, experience, and certifications in the employee assistance professional, human resource training and development, and project management have made her a valuable resource to my business ventures over the years. I have retained her services for various relevant projects since 2006.

As a Licensed Mental Health Counselor, over the years of her clinical practice 1996-2013, I have referred clients (patients) to Ms. Fritchman. She provided effective counseling and handled crisis situations. She was familiar with community resources and could refer whenever appropriate and in the client's best interest.

I have known Samara C Kezele Fritchman since 1988. I do not hesitate to recommend her for projects or employment opportunities that would utilize her skill sets.

If I can be of further assistance, please contact me.
