Of course!

I had the opportunity to attend the seminar in March 2020. I learned so much. I now feel confident with my consent forms. I was missing so many important details. Also, Samara is not joking when she said to contact her with questions. 3 days after I attended her seminar, I had a question about a situation I found myself in. I emailed Samara and heard back from her the next day. I am so grateful to have Samara and her resources available to me.

How is that?! 😊 If you need anything else, please do not hesitate to ask.
