Salutations in-return,

I didn't consult with you but I enjoyed your course. As an author myself I know how important it is to get helpful feedback.

Because of the depth and layers of integrated and collateral information embodied in professional law and ethics I have always chosen to take the CE course live. However, the issues confronting us in 2020 prohibited this choice. I appreciate the format that INR and its instructors provide and chose one of their courses...

I would recommend without hesitation taking the professional law and ethics webinar course from Samara Fritchman. What a pleasure it was to feel like I was sitting with master therapist peers in a meeting discussing risk management. She provided an atmosphere that only a seasoned clinician who has lived the challenges of private practice could bring to such an enriched topic. The content was broken down and organized in a most useful manner both for review and learning. Additionally, Samara provided numerous scenarios for clarity and practical application. I look forward to my next CE course with her. Great instructor!

I hope this is along the lines of what you had in mind. If I have stated something incorrectly or could say it in a different manner just let me know. What I wrote is an authentic review. Easy to write. You know your stuff!
Sharon
