Below is my testimonial and I give permission for you to post it anywhere you desire or make changes to verbiage as you see necessary:

I had the honor of attending Samara's ethics seminar and it is one of my favorite CEs to date! It was incredible how interesting and captivating she formatted it. It felt relevant and applicable, despite some naturally dry material. Following her seminar I did various consults with her about a few unique client cases I had and she was warm and insightful. Samara is such an important asset to this field and it's professionals. We are all lucky to have her as our colleague and resource!

Tiffany Goles, MSW, LMSW
