COUNSELING COMPLEX CHRISTIAN CLIENTS

Multi-morbidity, mood and impulsivity: assessment, treatment, and intervention. Many Christians continue to struggle with strong negative reactions, continued beliefs in false ideas, continued destructive relationships, and interpersonal obsessions. At this seminar, you will see clients' conditions in terms of affect and attachment rather than cognitive schemas; and resistance, over-reactivity, and impulsivity as the result of emotional set-points. Practitioners from all corners of the psychotherapy landscape are invited to attend and glean from therapeutic approaches to help you work successfully and confidently with complex clients.

ETHICS AND LEGAL ISSUES FOR CHRISTIAN COUNSELORS

Ethical issues in mental health and related healthcare positions pose some of the most challenging questions; and the questions change with each advancement in technology and each new piece of legislation—bringing a constant barrage of vexing ethical dilemmas. This seminar will help you sort out facts from fiction, ethical issues from legal issues, and their application in practice. You will gain an understanding and an appreciation for the purpose and practice of ethical standards, and learn how to decrease your risk of being drawn into an ethical or legal issue.

Samara's clinical work, relevant examples, her use of humor and her ability to elicit lively audience interaction helps make the time spent "fun" as well as informative – the time will fly by!
