75+ Rating Scales & Assessment Tools

Spend Less Time Typing

With the ICANotes Behavioral Health EHR, clinicians have access to more than 75 different electronic rating scales and assessment tools for adults and children. These rating scales and behavioral health assessments are **integrated** with the patient's **mental health chart** and **treatment plans** to ensure all patient records are easily accessible and secure. Built-in electronic assessments are available for **depression**, anxiety, PTSD, mood disorders, **substance abuse** and so much more, allowing clinicians to **spend less time on paperwork and more time with patients**.

We've integrated the most popular public domain behavioral health rating scales and assessment tools including:

- ✓ **Adult Assessments**
- ✓ **Child Assessments**
