RE: Letter of Recommendation for  
Claudia Kezele  
DTAE: December 31, 1979

To Whom it May Concern:

Claudia Kezele was brought on by myself, to my practice, from her Ward Clerk position at Tacoma General Hospital (Surgical Ward 5A). I met her while she was in this position and realized she was efficient and intelligent. I hired her to be my Field Trained Physician Assistant (PA). Over her six years with me, her duties included both working with patients, assisting me, and some clerical work. During her time with me she interacted well with patients, showed considerable ability to learn and assist me with patient care and also, assisting in surgery. Field Trained PAs are no longer going to be allowed in the local hospital. Claudia has been working toward her certification in Employee Assistance and has decided to head in other directions. I am confident that whatever she will be doing in the future, she will do it exceptionally.

Sincerely,

A handwritten signature in dark ink, appearing to read "David W. Millett". The signature is fluid and cursive, with the first name "David" being the most prominent.

David W. Millett, MD
